LIMITATIONS ON PERMIT

The following Excerpts from the Atascadero Municipal Code are provided for your information:

Validity of Permit.

The issuance or granting of a permit or approval of plans, specifications and computations shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or of any other ordinance of the jurisdiction. Permits presuming to give authority to violate or cancel the provisions of the code or other ordinances of the jurisdiction shall not be valid.

The issuance of a permit based on plans, specifications and other data shall not prevent the Building Official from thereafter requiring the correction of errors in said plans, specifications and other data, or from preventing building operations being carried on thereunder when in violation of this code or any other ordinances of this jurisdiction.

Permit Expiration.

All permits approved by the Building Official shall be issued and work commenced within 180 days of approval date or permit will be declared expired by these limitations. Every permit issued by the Building Official under the provisions of this code shall expire by limitations and become null and void if the building or work authorized by such permit is suspended or abandoned at any time after the permit is issued for a period of 180 days. Before such work can be recommenced, a reinstated permit shall first be obtained to do so. The fee therefore shall be half (1/2) the amount required for a new permit for such work, provided no changes have been made or will be made in the original plans and specifications for such work; and provided further that such suspension or abandonment has not exceeded 180 days. In order to renew action on an expired permit after 180 days, the permittee shall submit new plans and pay new plan check fees and full permit fees.

Failure to request and receive an inspection within 180 days from the LAST CITY RECORDED INSPECTION constitutes a condition of suspension or abandonment.

Expiration of Plan Review.

Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the Building Official. The Building Official may extend the time for action by the applicant for a period not exceeding 180 days upon request by the applicant, in writing, showing that circumstances beyond the control of the applicant have prevented action from being taken.

Investigation.

Whenever any work for which a permit is required by this code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work. Investigative fees will be assessed as stated in the Atascadero Municipal Code.

PLAN REVIEW FEE(S) / PERMIT FEE(S) / SERVICES FEE(S) DECLARATION

PERMIT EXPIRATION / ABANDONMENT: I understand that if this permit application is Abandoned in any way or if this permit application is Expired by Limitations I shall be responsible for all plan check fees and all other fees for services associated with this permit application that were provided by the City of Atascadero prior to abandonment or expiration.

PERMIT ISSUANCE: I understand that there may be additional fees due at time of permit issuance in addition to the plan check fee(s) that were paid when I submitted my permit application. Contact the Building Department for additional information.

_____ (Contractors ONLY) As the licensed contractor for this permit, I am aware it is my responsibility to explain and make aware to the Property Owner these limitations and inspection requirements.

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the following reason(s) indicated below by the checkmark(s) I have placed next to the applicable item(s) (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors' State License Law (Chapter 9 commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt from licensure and the basis for the alleged exemption. PROPERTY OWNER'S ACKNOWLEDGEMENT & VERIFICATION INFORMATION

Disclosures & Forms for Owner-Builders Applying for Construction Permits

Pursuant to Assembly Bill 2335, Effective January 1, 2009

Dear Property Owner:

A building permit application has been submitted in your name listing yourself as the builder of the property improvements located at: _____ . We are providing you with an Owner-Builder Acknowledgment and Information Verification Form to make you aware of your responsibilities and possible risk you may incur by having this permit issued in your name as the Owner-Builder. **We will not issue a building permit until you have read, initialed your understanding of each provision, signed, and returned this form to us at our official address indicated.** An agent of the owner cannot execute this notice unless you, the property owner, obtain the prior approval of the permitting authority.

DIRECTIONS: *Read and initial each statement below to signify you understand or verify this information.*

___ 1. I understand a frequent practice of unlicensed persons is to have the property owner obtain an "Owner-Builder" building permit that erroneously implies that the property owner is providing his or her own labor and material personally. I, as an Owner-Builder, may be held liable and subject to serious financial risk for any injuries sustained by an unlicensed person and his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an Owner-Builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

___ 2. I understand building permits are not required to be signed by property owners unless they are responsible for the construction and are not hiring a licensed Contractor to assume this responsibility.

___ 3. I understand as an "Owner-Builder" I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed Contractor and having the permit filed in his or her name instead of my own.

___ 4. I understand Contractors are required by law to be licensed and bonded in California and to list their license numbers on permits and contracts.

___ 5. I understand that I am responsible for supervising, scheduling, and paying subcontractors. If I use anyone other than a licensed contractor or subcontractor for work, I may be considered an "employer" under state and federal law.

___ 6. I understand if I am considered an "employer" under state and federal law, I must register with the state and federal government, withhold payroll taxes, provide workers' compensation disability insurance, and contribute to unemployment compensation for each "employee." I also understand my failure to abide by these laws may subject me to serious financial risk.

___ 7. I understand under California Contractors' State License Law, an Owner-Builder who builds single-family residential structures cannot legally build them with the intent to offer them for sale, unless all work is performed by licensed subcontractors and the number of structures does not exceed four within any calendar year, or all of the work is performed under contract with a licensed general building Contractor.

___ 8. I understand as an Owner-Builder if I sell the property for which this permit is issued, I may be held liable for any financial or personal injuries sustained by any subsequent owner(s) that result from any latent construction defects in the workmanship or materials.

___ 9. I understand I may obtain more information regarding my obligations as an "employer" from the Internal Revenue Service, the United States Small Business Administration, the California Department of Benefit Payments, and the California Division of Industrial Accidents. I also understand I may contact the California Contractors' State License Board (CSLB) at 1-800-321-CLSB (2752) or www.cslb.ca.gov for more information about licensed contractors.

___ 10. I am aware of and consent to an Owner-Builder building permit applied for in my name, and understand that I am the party legally and financially responsible for proposed construction activity at the following address:

___ 11. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern Owner-Builders as well as employers.

___ 12. I agree to notify the issuer of this form immediately of any additions, deletions, or changes to any of the information I have provided on this form. Licensed contractors are regulated by laws designed to protect the public. If you contract with someone who does not have a license, the Contractors' State License Board may be unable to assist you with any financial loss you may sustain as a result of a complaint. Your only remedy against unlicensed Contractors may be in civil court. It is also important for you to understand that if an unlicensed Contractor or employee of the individual or firm is injured while working on your property, you may be held liable for damages. If you obtain a permit as Owner-Builder and wish to hire Contractors, you will be responsible for verifying whether or not those Contractors are properly licensed and the status of their workers' compensation insurance coverage.

Before a building permit can be issued, this form must be completed and signed by the property owner and returned to the agency responsible for issuing the permit. Note: A copy of the property owner's driver's license, form notarization, or other verification acceptable to the agency is required to be presented when the permit is issued to verify the property owner's signature.
