I am a neighbor of 4590 Portola Road, I live at 4590 Portola Road. I see no problem at all with the project and what they want to do will be an asset to the property and neighborhood.

Thanks, V. Mumford

We live at Portola Rd and are fine with an RV garage being built at 4590 Portola Rd. We are pleased that the owners have gone through the permit process and are happy with what they propose.

Respectfully submitted,
Gary & Marilyn Kirkland

Hello,
As a homeowner on property adjacent to Jon & Frieda Langford's new building location, I would like to voice my approval for their Shop/RV Garage project. It will be visible from my home but the design and style is very attractive and I am pleased with the other improvements they have made in our immediate neighborhood. Their project has my endorsement.

Regards,
Caitlin Langford

In reference to Administrative Use Permit to allow for a 1512 SF detached RV storage garage at location 4590 Portola Road, I am one of their next door neighbors (Shiloe Rocha, My house sits directly adjacent to their home. All of their construction to date has been of the highest quality. In addition, the Langford family are top notch people and are a pleasure to have as our neighbors. The RV storage will make for a very clean and tidy yard. As for impact on the neighborhood, the proposed RV storage will have little to no impact on our neighborhood and I am in favor of it.

I hope this will help in the decision making process for this project.

Respectfully,
Shiloe Rocha
